[REDACTED]

Copy No. 1

22 July 1968

25X1

Don:

1. Per our recent discussion, attached are some facts, comments and views concerning further actions in response to the [REDACTED] Report recommendations. You understand, of course, that these informal comments reflect the scene as I see it personally and have not been reviewed by Ed Proctor or anyone else in the chain of command. However, I do believe that you would find Ed in agreement with the general thrust of most of the statements.

25X1

2. You probably will format your review in line with the list of [REDACTED] recommendations and therefore I have shaped the attached report along these same lines. As a result, you will note reference to the same action or fact in several different places because some single factors bear on more than one of the recommendations. If there is anything further I can provide after you go over this material, please feel free to call on me.
